Here's the way we look at it

Just for a minute, look at the tire proposition from our standpoint.

We are in the tire business here, to stay. We can remain in business only so long as we please our customers.

Consequently, it pays us to handle good tires—United States Tires.

They're the tires we sell.

They're the tires you should use.

We have them to meet every need of price or use.

United States Tires are Good Tires

We know United States Tires are good tires. That's why we sell them.

Cheyenne County Wins Glory at the State Fair, Held at Pueblo, Colo., 1918

In Competition with the Entire State Cheyenne County Makes a Killing With its Agricultural Display.

In the competition for non-irrigated counties Cheyenne county was awarded second place.

In individual premiums Cheyenne county was particularly strong, it receiving 23 first, 18 second and 3 third premiums. In potatoes, onions and melons it stood supreme, and that in competition with irrigated counties which make the growing of these crops a specialty.

So much for Cheyenne county's agricultural exhibit at the state fair, but the tale is not yet all told.

J. O. D. Ranch of Aroya, this county, managed by D. Schilling, with precisely the same exhibit it had at the Cheyenne County Fair, the showing being of cattle, hogs, sheep and jacks, won 9 first, 5 second, 3 third and 1 fifth premiums, besides 3 championships and 1 reserve championship on hogs, sheep and jacks, and all this against the stiffest kind of competition.

This is the story of Cheyenne county's glorious success at the Colorado State Fair for the year 1918, told without frills or exaggeration. Read it over and ponder.
